

Save MONEY with Beam Runner™

Tie off in seconds vs. old way that takes minutes. Saves \$100's / week.

Tie off almost anywhere. Saves time and energy.

Workers will tie off with this easy to use tool. Save on fines & accidents.

Lightweight Beam Runner™ is easier to carry, workers won't fatigue as soon.

Replaces other costly tools. A single Beam Runner™ multi-tasks.

Training on correct use is short and simple. Get workers up to speed fast. Simplifies PFAS training requirements

Features

Adjustable up to 1" beams. Also models up to 3"

Stainless Steel

Creates a step where needed

7075 Aerospace Aluminum

Weighs only 3 1/2 Lbs

Automatic Lock with Trigger Grip Release

Eyelet for lanyard

Creates a step where needed

Create a step anywhere. Climb a column, set the Beam Runner™, then stand on it. Beam Runner™ becomes a temporary platform, save time and effort. Get that extra step or reach and still be safely tied off.

Easy Access Holster

Always have your Beam Runner™ where you can easily grab it. The holster comes with the tool. A safe place to store it. Keeps the tool clean & protected. The holster is comfortable to wear all day. Orange color can be seen from a distance.

1 Handed Tie Off

When working on ladders it is difficult to wrap a beam strap around a beam. Beam Runner™ helps the worker to tie-off in difficult positions. The tool needs only one flange to connect and only one hand to attach.

Works with retractable life lines

Use the Beam Runner™ as a fast anchor point in conjunction with retractable life lines for 100% tie off.

Left and Right handed versions

Use on Diagonal, Horizontal and Vertical

Provides endless anchor points where they aren't available with other tools.
